First Meeting Of 1919 Council

The first regular fortnightly meeting of the Blairmore 1919 town council was held on Thursday night last, Mayor Ewan and Councillors McDonald, McLeod, Rose and Montalbetti being present.

On motion the minutes of previous meeting were approved as read.

Several communications were dealt with, and a batch of accounts were passed for payment, subject to approval by various committees.

Councillor McLeod, as chairman of the finance committee, objected to several accounts, particularly that presented by Councillor McDonald in connection with his services with the health and relief committee during the recent epidemic. Councillor McLeod asked for an itemized statement from Councillor McDonald, showing number of days employed and number of hours and trips his auto was engaged for.

Objection was raised to the location of a street light in front of the residence of ex-Councillor McVey on Madawaska Street, between Eighth and Ninth Avenues, and on motion by Montalbetti-McDonald, it was ordered that said light be removed nearer the home of Councillor Morency at the corner of Madawaska and Ninth Avenue, and that a snap-switch be installed.

McLeod-Morency—That the secretary be instructed to take steps to collect the amounts due from the influenza patients as per rendered bills. Carried.

Mayor Ewan gave notice that at the next regular meeting of the council he would introduce a by-law appointing officials and naming salaries.

Need For a Citizens' Committee

In the absence of a board of trade, Blairmore might do "good service through the agency of a citizens' committee. A few years ago, the question of a park was brought up by the board of trade, and at that time the C. P. R. made the promise to furnish the necessary bed plants, trees, etc. for a park to be located on the square just east of the C.P.R. depot and north of the tracks, provided the town would see to the upkeep. Since then the matter has dropped. Blairmore is one of the very few points which show neglect in this matter, and no place has a better opportunity for a flower patch than here. Let's get busy. Very little influence on our part will be necessary to accomplish the desired end. The C.P.R. feel it is not only in their interests, but very much in the interest of the town to see a properly maintained park near the depot. The cost of upkeep would be a very small matter and might be arranged with the town council.

Teachers' Salaries To Be Paid In Full

The Department of Education has definite advice from the Attorney General of the Province that school boards were quite within their rights in paying teachers' salaries in full, regardless of whether the schools were closed by the health authorities for more than thirty days or not. This department has already made this opinion public in the press of the Province and advised school boards everywhere to pay all teachers in full to the end of the year. As enquiries are still coming in, we now repeat that advice along with the assurance that government grants will be paid in full to all school boards who pay their teachers in full and not otherwise.

Meeting of New School Board

The first regular meeting of the new school board was held on Friday evening last, when the full board was in attendance.

A Hamilton was elected chairman of the board, and F. Wright secretary pro tem.

The minutes of previous meeting were approved as read.

W. Chappell moved that teachers be asked to supply trustees with report in accordance with Section 60, Sub-section 1 of the School Ordinance. Carried.

Moved by A. Hamilton (chairman) that the secretary write the Attorney General, asking if it is the duty of the auditors for the municipality to audit the school district books according to Section 89 of the school ordinance. Carried.

W. Chappell moved that two thermometers be purchased for the school. Carried.

Moved by A. Hamilton (chairman) that a committee of the board be appointed to take up question of wiring school and to get the work done as early as possible. J. McPhail and W. J. Bartlett were appointed.

On motion by W. J. Bartlett, the secretary was instructed to order six copies of the school ordinance.

Crawford--Brown

A quiet, but pretty wedding took place in South Edmonton recently, when Georgina Brown, principal of Milk River Valley consolidated school, and younger daughter of William Brown, factor for Earl of Selkirk, were united in matrimony to John I. Crawford, eldest son of James Crawford, Banockburn, Scotland. The Rev. Edward McGowan, M. A., officiated. The bride was attended by her sister, Miss J. Brown, while the groom was attended by Mr. C. S. Congalton. Dinner was served in the Yale hotel. The happy couple were the recipients of many valuable gifts, including a handsome dining room suite from the office staff of the Lovett branch of the North American Colliery Co. Mr. and Mrs. Crawford will reside in Lovett, Alberta.

G. W. V. A. Organizes

At a well-attended meeting of the war veterans held in the Union hall at Frank, on Sunday afternoon, a local branch of the Great War Veterans Association was organized. Walter Howe, late lance corporal, was elected Secretary, and C. Stewart president pro tem.

Another meeting will be held at Frank on Sunday next at 3:30 p. m., when the question of making this branch a district branch will be considered. All war veterans are asked to attend this meeting.

There is no reason why the G. W. V. A. should not become a strong and active organization in the Crow's Nest Pass. Lethbridge and other points in the Province have recently organized, and look forward to successful undertakings. Matters of vital interest to veterans and their dependents will be subjects of attention.

An old sport sat in the grand stand chair
With tears in his eyes, and mud in his hair,
And his voice tore out through the evening air,
As he cried aloud with a throat most bare—

"Prohibition and 2% will drive us to drink."
So for goodness' sake open the old Frank rink.
Give 'em a cheer.

A. Bowers was in from the park to reserve the early part of the week.

Guide Our Values By Comparison

Compare Quality! Compare Assortment! Compare Prices!

That is what we ask you all to do—Compare! Then take advantage of this special and unusual opportunity to fill your apparel wants from our complete stock, and while you note our exceptionally low prices during January, you will not wonder why we ask you to "Guide Our Values by Comparison."

Foch's Tribute to Heroes

Marshal Foch recently concluded a visit to the British lines in France, and in the course of that visit he paid a tribute to the work of the British army. In this article which comes from a semi-official source, the Allied Generalissimo's tribute to the men of the east Anglian regiments is recorded by a staff officer who was present.
One of the things about Marshal Foch that stamps him out as a great leader of men is the fact that he never forgets things, and always knows something about the work of the different units of the great armies under his command. When he came among us he seemed to know all there was to be known about different regiments of the British army, and if you want to know what each unit did in the great war, you cannot do better than apply to Foch for the information. He is a marvel for that.

Speaking to men of the Norfolk and the Suffolk, Marshal Foch said: "In that war we have found that the British soldiers live up to their glorious reputation, but none have done so more than the regiments I see before me. None have been called on to make greater sacrifices than these men. I remember a critical period in our operations when it was necessary to take a great risk. There was one part of the Allied line about which I was anxious, because it was held by two battalions that had already done as much as could be expected from mortals. I mentioned my fears to a British general who was with me. He looked up the details that had been furnished and said to me: 'You need have no fear. That part of our line is held by the Norfolk and Suffolk. In reserve we have the Essex and Cambridgeshires.' At once I was reassured, for of old I knew the regiments referred to, and I knew they were equal to ten times their own number of boches. I went back to the planning of my counter strokes without any anxiety for this part of our line, and laid my plans as though that sector did not exist. It was only possible to do so because of the presence of these fine troops, and because of the certainty that they would hold their ground as long as it was necessary for them to do so. They were put to the test for more than six days and they did not fail me. They resisted all the attacks of the enemy and were not content with that. They had to try they counter attacked and drove the enemy out of strong positions. Their success in this direction helped our troops greatly and in due course the plans that had been made bore fruit in one of the greatest victories of the war. Had it not been for the magnificent work of those splendid English troops that success would not have been so complete. The Norfolk and Suffolk and the supporting troops from Essex and Cambridgeshire proved themselves matchless. They fought side by side with wonderful courage and they proved themselves more than a match for the best and greatest numerically that the enemy could put in the field. I take off my hat to the English troops, but particularly to the men of East Anglia. They are wonderful and they are unbeatable. France and humanity owe them a great debt that can never be repaid. The Germans have been forced to acknowledge the worth of your men, and in future years Germany will admit that it was the fine fighting qualities of the British troops that destroyed her hopes of success. These qualities were never displayed to greater advantage than by the men of the eastern counties. Norfolk, Suffolk, Essex and Cambridgeshire men. I thank you from the bottom of my heart for what you have achieved. France thanks you, and the whole world thanks you. You are heroes."—Suffolk Chronicle.

Some of the big insurance companies are co-operating heartily to popularize the Canadian War Savings Plan. The Prudential Life has engaged its staff in the Peterborough district into a War Savings Society, in which every man in the district has agreed to purchase stamps under the plan outlined by the Dominion government. The Great West Life is printing on all its letterheads "Buy War Savings Stamps." As they send out an immense amount of literature, this is a free advertisement of much value.

Small Sums Saved Increase Rapidly

The Canadian War Savings Plan, which makes saving both easy and profitable, is doing much to teach the public what can be done by putting away small sums of money.
On this subject the Saturday Evening Post says: "Take ten cents a day, which means a hoquet of three dollars every month. In ten years you will have saved \$360, which will have earned \$80.36 interest, making a total of \$440.36. This is the result of simply saving a single ten cent piece per day. As you increase the sum saved each day the value of the saved sum will be only strongly expressed. Fifteen cents a day, or four dollars and a half saved each month and compounded will amount to \$508.18 in ten years. Of this sum \$120.08 is interest earned. Twenty cents a day or six dollars per

month will amount to \$800.99, of which \$100.99 is interest. These sums saved could scarcely be missed from the purse of the average man. If you are able to put aside twenty five cents a day, or one dollar and a half a month, at the end of ten years you will find \$1,183.75 to your credit. If you are able to make the daily saving of thirty cents or nine dollars a month you will be worth \$1,363.50. Forty cents a day, or twelve dollars a month will roll up the big sum of \$1,732.16, of which \$222.16 is interest; while fifty cents a day, or six dollars a month will amount to \$2,277.75, of which \$402.75 is interest. Hence it is worth your profit to 'despise not' the saving of small sums.
Now let us see what the systematic or rather progressive saving of one dollar a week can do. In one year the \$52 saved will earn at four per cent. 78 cents in interest, making a working principal of \$52.78 at the start of the second year. At the close of the second year you will have \$107.67, at the end of the fifth year \$253.65. In fifteen years this steady saving of a dollar a week would show a total of \$1,036.79. At 4 per cent. it would earn \$17.91 a year. If you kept up the saving of a dollar each week for fifty years you would accumulate \$8,007.16.

Life Companies Are Assisting

Some of the big insurance companies are co-operating heartily to popularize the Canadian War Savings Plan. The Prudential Life has engaged its staff in the Peterborough district into a War Savings Society, in which every man in the district has agreed to purchase stamps under the plan outlined by the Dominion government. The Great West Life is printing on all its letterheads "Buy War Savings Stamps." As they send out an immense amount of literature, this is a free advertisement of much value.

Greater Triumphs For The Edison

Every day comes fresh appreciation of the wonderful life-like, almost human, music which the New Edison Diamond Amberola brings into the home. People realize that this new phonograph is as nearly human as any invention can be—and that coupled with its truly marvelous reproductions, are its mechanical perfection and convenience.

The NEW EDISON DIAMOND AMBEROLA

uses no needles—has a diamond reproducer point which never wears out; and plays the wonderful AMBEROL RECORDS, which are almost unwearable and nearly unbreakable

This is the phonograph and records which you may have for a while in your home, to entertain yourself and your friends, without charge and without obligation on your part to buy.

Simply pick out the model you prefer and the records you would like to hear.

We'll send them to your home, where you can enjoy the marvels of the Amberola at your pleasure. If you decide to keep the outfit, we will be glad to arrange convenient terms, or you may pay cash if you prefer.

Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year their number increased twenty times—to 820,000. This was the number purchasing the Victory Loan, 1917. In November, 1918, over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$670,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, thru the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment and why the government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No argument was overlooked. No selling point was neglected.

The result is that Canadians today are a nation of bondholders.

They know what a convenient, safe and profitable form of investment bonds are. Instead of one man in two hundred owning bonds, now one Canadian in eight—men, women and children—owns a government security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed. The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. F. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan, 1918, said: "The press publicity campaign will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country." And Mr. J. H. Gundy, Vice-Chairman of the same committee, said: "I have been selling bonds for a long time but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds, are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—this applies not to bonds alone but to the goods you are interested in selling.

Bellevue Happenings

George Cantalini was a visitor to
Calgary this week.

The dance given in the Workers'
hall last night was well attended.

Miss Mary McDonald, of the
Lethbridge post office staff, is the
guest of Miss Mary Bosseley for a
few days.

Mr. George Knowles and chil-
dren have returned from a visit to
Calgary.

Private Joe Christie returned to
town from Calgary on Sunday last,
and has since joined the ranks of
the tollers.

Constable Peebles has returned
from Lethbridge, to which point he
accompanied a prisoner the early
part of the week.

Mr. and Mrs. David Martell, who
had been visiting with Mr. and
Mrs. A. Martell, returned to Van-
couver this week.

Private Thomas Allison, who has
been ill since returning from Cal-
gary, has been taken to the Frank
Sanatorium for treatment.

W. Cole, of the Rex Theatre, has
taken over the Hillcrest opera
house, which he will operate in
future. Bill will soon have a Pan-
tages circuit all his own.

Don't forget the Burn's Anniver-
sary celebration to be held in the
Workers' hall on January the 24th.
A splendid concert program will be
rendered and a grand dance will
follow. If you're not Scotch, be
Scotch for one night, anyway!

With this issue we start a cam-
paign of advertising in the interests
of the merchants and citizens of
Bellevue. Bellevue merchants be-
lieve that the time is opportune
that they should come out and de-
clare themselves open for business.
They will henceforth endeavor to
appeal through the columns of this
paper to the buying public to pat-
ronize the home store. We have
on our Bellevue subscription list
some seventy names. There are yet
a number of homes in Bellevue into
which The Enterprise should be-
come a valuable and welcome
weekly visitor, and we ask all
those desirous of assisting with our
great army of readers to leave their
names and the necessary "spou-
dukka" with the Bellevue druggist or
The Enterprise at once.

New Shell Orders Near Half Billion

Canada Has Produced to End of September 68 Million Shells. It is officially announced that up to September 30 manufacturers in Canada had produced 68,000,000 shells and 75,600,000 forgings.

The war authorities are making preparations as if there was no peace in sight, and orders on a large scale than ever are being let by the imperial munitions board. The orders for the coming year will run nearly half a billion dollars.

Every careful and observing mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. The best application that can be got is Miller's Worm Cure. It drives worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

The Wool of the Llama

The wool of this curious animal is largely in use in Bolivia, where the traveller may see Indian women sitting before their looms and spinning the wool, while they watch their flocks. These women use hand looms on which they could weave blankets and shawls.

Minard's Liniment Cures Dismember

Brave Children

Cowardly Boche Cannot Frighten Them

The English, French and Belgian children have proved themselves worthy of their fathers. Undismayed and unafraid, in spite of the bombs and airplane raids and all the other horrors that Germany has visited upon their countries, they have gone to school, helped in every way they could and acted quite as if nothing were happening.

The visit of submarines to American waters has shown the equally brave and fine spirit of the Canadian and United States youngsters. One little girl, Anita Cheney, obeyed orders like a soldier when the boats were lowered, and in the humble days that followed, drift in the sea without sufficient food or water, she made no complaint and kept up the spirits of the whole party.

The Boche cannot even frighten the children with their cowardly methods. All the allied nations' children, women and men stand together to win this war.

Easy to Remember

Dr. Reid, a celebrated medical writer, was requested by a literary lady to call at her hall and he said he would be charmed to do so.

"You won't forget the address," she said. "No, I won't," he replied. "Madam," said the doctor, "I am too great an admirer of politeness not to remember the address. I fear, too, to forget No. 1."

Washed Food and Leather

United States Fisheries Bureau Is Indignant

One hundred and fifty "blackfish" (or about that number) can ashore and were stranded on the beach of Nantuxet Island recently.

This becomes an interesting item in that it is understood that blackfish are fat fishes at all, but small whales from fifteen to forty long and weighing from one to three tons apiece.

They were driven up on the beach by fishermen and allowed to die there—just for sport. No use was made of them. The huge carcasses simply rotted and poisoned the air.

The meat of these whales was worth in the market twenty-five cents a pound. Their hides, for leather, were worth eight cents a pound. The oil derivable from their jaws (the finest known for certain lubricating purposes) was worth \$8 a gallon.

This is "controversial" Massachusetts style. Naturally the United States Fisheries Bureau is indignant. So likewise the food administration. But what can they do about it?

In 1879 150 blackfish ran ashore at Provincetown near the tip of Cape Cod. They all went to waste. No body had the pumpkins to turn them to any use.

The blackfish is a silly mammal. One of a herd happens to run into a net and the whole herd follows. Two or three seen in a boat, getting outside of a bunch of them and hanging on the shore must be so frightened that they will all rush for the beach and become hopelessly stranded.

Greater Wheat Acreage Needed

The Canadian wheat crop for 1918 has proved disappointing, despite the increased efforts to put a larger acreage under the plow. It must be renewed for 1919. Victory is in the air. Canada must not relax in her task of producing wheat. It is important that the "greater possible" wheat acreage be plowed this fall. The United States wheat crop this year was fortunately a big success. Next year it will be Canada's turn. The allies depend upon us.

Would Take the Chance

Pat, whose regime was in action, became quite overcome by fright and started on a run for the rear. An officer called to him to stop shouting. "Stop, or I'll fire at you!" Pat increased his speed. "Fire away," he yelled. "Phew! was built to a bush of ferns."

LIFT YOUR CORNS OFF WITH FINGERS

How to loosen a tender corn or callus so it lifts out without pain

Let folks step on your feet hereafter, wear slippers a size or two larger, take care to overcome by fright and started on a run for the rear. An officer called to him to stop shouting. "Stop, or I'll fire at you!" Pat increased his speed. "Fire away," he yelled. "Phew! was built to a bush of ferns."

It takes for you to see your feet hereafter, wear slippers a size or two larger, take care to overcome by fright and started on a run for the rear. An officer called to him to stop shouting. "Stop, or I'll fire at you!" Pat increased his speed. "Fire away," he yelled. "Phew! was built to a bush of ferns."

He says that a few drops of a drug called Frezzone, applied three or four times a day, instantly relieves corns, and soon the corn, root and all, lifts right out.

This drug dries at once and simply shrivels up the corn or callus with its roots, even the surrounding tissue.

A small bottle of Frezzone contains all the drug store will cost very little but will positively remove every hard or soft corn of callus from one's feet.

If your druggist hasn't stocked this new drug yet, tell him to get a bottle of Frezzone for you from his wholesale drug house.

India Has Given Over 1,000,000 Men

Soldiers are Fighting on All Fronts

—War Loans and Out' Sup-plies Also Large

Gen. Allenby's great victories in Palestine and Syria, which India has played a prominent part, made the time opportune to place on record the number of Indians in the Indian Army issued by the British empire.

Indian troops have borne their share in the war in France, Mesopotamia, the Dardanelles, at Salonika, East Africa and in Central Asia. Up to July 31, 1918, India has contributed no fewer than 1,115,189 men to the British army.

The first Indian war loan reached the sum of £40,000,000 sterling, and the second loan has reached even a greater amount.

India has sent to the various theatres of war more than 1,500 miles of railroad track, 50 engines and 4,500 cars.

Canadians Assist U. S.

Mr. T. B. Kidger, formerly "civil" the department of soldiers' civil rehabilitation, and who was largely instrumental in organizing the work of vocational training for disabled soldiers in Canada, has been loaned by the Canadian government to the United States federal board for vocational training to assist in the work of the department of soldiers' civil rehabilitation in that country. Dr. J. C. Miller, formerly district veterinarian and now the same department in Alberta, also has been appointed in the United States as supervisor of the department of soldiers' civil rehabilitation, the appointment being effective August 1, 1918.

Ragged Robin and Dingy Douglas were talking over the day's doings as they ate bread and cheese upon a haystack.

"I begged a woman for a glass of cold milk and coffee, and a pair of duds and a place to sleep, and she slammed the door in me face!" growled Ragged Robin.

"Ver ally chump!" cried Dingy Douglas. "That's what yer git for putting 'er out!"

Voluntary Rations Plan

New Brunswick has adopted a voluntary rationing scheme for the homes of her people. This plan was prepared in conference of representatives of local food control, women's institutes and domestic science teachers. It was revised and approved by the Canada food board. Plans are being formulated in other provinces, revised in certain cases, and set to local control.

Concurs Heals Pimples On Face

That Itched and Burned. Scratched Constantly.

"I had pimples and blackheads on my face which were caused by bad blood. They itched and burned and were hard and red causing discomfort for the face. I used Concurs and it cured me. I am now clear and healthy." (Signed) Miss Josephine A. Weimer, 35 Sherbro St., St. John, N. B., Aug. 10, 1917.

They Know the Way

West Indian turtle catchers declare that newly hatched turtles possess an uncanny instinct of the direction in which the nearest water lies. Even when the eggs have been taken inland and hatched several miles from the sea, the little turtles will point in a direct line toward the salt water, and at once begin to make their way toward it.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple, strong remedy—Mother Graves' Worm Exterminator.

Transplanting Wild Rice

Difficult to Grow the Plant If It Is Properly Handled

Wild rice grows in many parts of Western Canada, and its seed is food for wild water fowl has suggested to many people the possibility of transplanting it to the prairie, where it is not now found. Several parties have gathered seed this year and interest in planting it seems to have been aroused in many parts of the west. It is not difficult to grow this plant if it be properly handled.

Although wild rice does not grow naturally in the prairie, it can be raised to do so by transplanting by means of tubers of Indian and investigations conducted by the bureau of plant industry have shown that with proper treatment, wild rice can be planted in any favorable water in the country. It has also been successfully grown in Europe.

Wild rice thrives best upon a mud growth, which has been known to grow in various soils, but there should be a layer of mud at least from two to four inches deep and preferably deeper. Wild rice usually does not grow where there is much current, although it grows abundantly on tide flats. It must be removed to stagnant water. From four inches to six feet of water are about the limits to which it can be adapted. It does best in from one to three feet. In shallow water it may be planted by means of the least possible time must intervene between removal from cold storage and sowing. The seed should be soaked for several days, and the seed should be quickly sown, as the growing process, when the seed is sown, is very quick. The seed should be sown in a good soil, and a good stand is more likely to be established if the seed is more widely scattered.

Fall has usually been considered the most desirable time to sow, but it has been proved that seed sown in spring will bring a full crop, and for several years the spring sowing is usually advisable. Where seed has been sown in the fall, the bottom of the seed should be kept dry off by the ice in the spring. Ducks and other water fowl, as well as fish, eat the seed, and the loss is exposed to their depredations the more abundant will be the crop. Seed is likely also to be buried by deposits of mud, or swept away by currents, especially in freshets. These dangers may be avoided by sowing the seed in spring, late enough to avoid the worst spring freshets, but in time to get the benefit of the first good growing weather; that is, when the temperature of the water approaches 60 degrees Fahrenheit.

Minard's Liniment Cures Garget in Cows

Sugar Deal Ends Speculation

The sugar equalization board on September 13, closed a contract with the Cuban minister for the purchase of the Cuban sugar crop on the basis of about \$5.50 per hundred pounds. The Cuban price for the purchase in many instances was advanced to the sugar and other goods, English, French and Italian governments. The crop will begin to be available in December, and the board by the United States food administration. The arrangement put an end to all speculation in sugar and assured an equitable distribution between all allies.

Night Air Patrols

By U. S. Aviators

System by Which American Flyers Keep Touch With Enemy Airman

American aviators, by inaugurating night patrols along the Meuse, have attracted much attention among the aviators of other nations. Under the present plan the air force is always subject to a call from the front, where observers or listeners are posted to detect the motor of a German airplane is heard approaching the American lines.

As soon as one of these reports is received the searchlights begin sweeping the sky. The night patrols arrive at the same time. In event the German machine is located by the ray of a searchlight, the American machines attack until the enemy is downed or makes his escape.

When the system was inaugurated, five aviators started seeking any German machine that might be about. When a searchlight picks up an American machine, the pilot gives a signal is given, eliminating danger that the American might be shot down by his own men. When the aviators are aloft their airdromes are brightly lit, so that they may return without trouble.

A Boy's Bad Break

A rather dignified lady got a little shock the other afternoon. She called at the house of a new acquaintance, and the little fellow who answered the door, which his mother was out. The dignified lady took out a card to leave, and in doing so left the card slip flutter to the ground. "Please," he said, "you dropped one of your cigarette papers."—Boston Transcript.

THE AFTER EFFECTS OF DREADED LA GRIPPE

Worse Than the Disease Itself—Victims Left Weak, Nervous and Worn Out

La Grippe, or Spanish influenza as the epidemic now sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs will find it hard to believe that the disease attacks you, the patient, should at once go to bed, and call a doctor.

This is the only thing to do. But to recover your strength after the severity of the attack has passed, you will need the aid of the Pink Pills, an unsurpassed tonic. Through the use of this medicine all the evil after-effects of this scourge will be banished.

"This has been proved in thousands of cases throughout Canada where in previous seasons la grippe has attacked them. Among the many thus restored to full health," Miss Irene Brookes, Port Huron, Ontario, says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe, and it left me weak and all run down. I had severe pains in the chest and under the arms, and the action of the heart and attack of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better my condition. I had only been using the pills a couple of weeks when my strength returned, my appetite improved, and in a little more than a month I felt all my old-time vigor had returned. I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them."

Dr. Williams' Pink Pills not only cure the disastrous after-effects of la grippe, but are also a specific for all troubles due to poor blood, such as anemia, neurasthenia, indigestion, women's ailments, and the generally worn-out feeling that affects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or bottles for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

A Senseless Discussion

"Every man has a right to his own opinion," said the argumentative man. "That's what I say," exclaimed the other. "I don't care for your opinion. What is the sense of your putting up a sign to tell me what you think, when you have no opinion away from the and substitute yours?"—Washington Star.

Just Caught in Passing

Keep W.S.S. in mind.

Saturday will be the closing-day of F. M. Thompson Co.'s great stock-taking sale.

A grand dance will be given in the Union Hall at Hillcrest on the night of Monday, January the 20th. Make 1919 a W.S.S. year.

About one hundred Blairmore folks attended the grand carnival at the Coleman skating rink on Tuesday night.

The officers of the Blairmore Lodge, I.O.O.F., will be installed at the regular meeting of the lodge on Tuesday night next.

COLEMAN TOWN BAND—Music for Dancing. Any number of players supplied. Apply to G. Seddington, secretary.

Thomas Oscar Morrison died at Calgary on Tuesday, January 7th, aged 47 years. His brother, James, of Blairmore, was present at his bedside.

The body of Ray Connors, who has been removed from the Blairmore cemetery, and prepared for shipment to LaSalle, Wisconsin, by Undertaker Davies.

Mr. Kelley, former principal of the Bellevue public school, has decided to study law. For the present he is in the office of Mr. J. E. Gillis, Blairmore.

LAST—On State or Stuart Street, a gold watch, with plated silk guard attached. Finder will be rewarded on leaving same with Delbert Ennis or The Enterprise.

The Sport Club planned on having a brass band at the rink tomorrow (Friday) night, but owing to tomorrow's snow and wind storm the rink will be closed.

Make 1919 a saving year.

The Sport Club opened their rink on Friday night last, with a good sheet of ice and a big turnout of skaters. It's the first chance some have had to get a real skate on since July, 1917.

The Blairmore Flour and Feed Co. now handle the well-known Bellevue Bakery products, cakes of every description, pies, milk bread, etc. Leave your order at their store and have deliveries direct from the bakery, fresh daily. Special orders promptly filled.

LOST—Large Red Cow, supposed to have calved about December 20th, branded "EG" on right ribs, the nearest the neck. \$10 is offered for information that will lead to the recovery and return of the animal to Andrew Goodwin, Bellevue.

After spending five months in the dry dock at Esquimaux, undergoing repairs, the Japanese liner, Canada Maru, has again taken up the run to the Orient. The vessel ran on the rocks near Cape Flatten and was thought to be a total wreck, but was eventually floated. In the carrying out of repairs 145 shell plates were removed from the vessel.

Resolve to save during 1919.
Dr. Bremen, of Magrath, has accepted the position of medical practitioner in Blairmore, under arrangement with Dr. Oliver. Dr. Bremen has recently returned from overseas, where he had considerable experience and performed good service with the army medical corps. Dr. Bremen, with his family, will occupy the McDonald hospital in west Blairmore. The doctor arrived here on Tuesday and has already entered upon his duties.

The oldest living woman in the world, so far as is known, lives in Posen. She is 134 years of age, and her birth is substantiated by records. She was a young woman when Napoleon swept over Europe. At the time of her birth Frederick the Great was still alive and the United States had been born about eight years.

Says Mrs. McEckle, as she heaved a great sigh, "I have been worried to death and wished most to die. Since 2% of me in things have gone on the blink—O, how I do wish they'd open the old Frank rink!"
Give 'em a cheer

S.—Bro. W. L. Evans
P.S.—Bro. Owen Morgan
(The above is only partial list.)

Frank Skating Rink to Open

Through the energies of Mr. H. H. Fitzsimmons, the skating rink at Frank will open on Wednesday night of next week, and through The Enterprise Mr. Fitzsimmons wishes to make the following announcement:

"Our Friends—We are opening the covered skating rink at Frank, in the old smelter building, and can assure you of good ice, warm dressing rooms and well-lighted rink. This is the only covered rink in Southern Alberta, and we feel confident that our many friends and well wishers will give us their support and patronage. Mr. McIlhanna and myself have gone to considerable expense in fitting up the rink this season, but we feel sure that our patrons will appreciate our efforts when they see the sheet of ice we have prepared. We had two objects in view, and we submit them for your careful consideration. The first one is that we have a number of young hockey fans among our sister towns and this is one of the best rinks for the game, and we are prepared to offer every inducement to get the players to turn out. We also feel sure that the ladies would, on game days, hockey games and skating parties if the covered rink was available, and obtain great sport and pleasure thereby. In the event of the ladies organizing along the above lines we will be pleased to arrange afternoon for the different teams to practice. Our second object is that we are endeavoring to secure a few extra shillings for ourselves, as we were away for several days working for the King for one dollar—ten per, and our bills and accounts were placed on file during our absence. We wish to clean up our old bills and start the new year with a slight jingle in our pocket. For the past several nights we have worked and sweated and cussed at the mild weather, but everything is now in fine shape, and weather permitting, we will open Wednesday, January the 22nd, with a grand, magnificent carnival. A roll call will be held at eight o'clock sharp, and all ab-

Yes, It Pays To Advertise!

Last week four young ladies advertised for male companions. Four replies have already been received, as follows: Luigi Lischigita is an Italian, stands five-nine in height, weight 180 pounds, has a winning eye and a catchy dimple on left cheek, not of a jealous disposition has no matrimonial intentions, may be seen at any time less than a mile from Pick's booze dispensary. Frank Mandolin is a sweet-faced Swedish-Italian, a regular flirt, but never serious, has never kept company with an English-speaking girl for any length of time, believes in daylight saving, is a total abstainer and a good, honest worker, medium fair complexion, 23 years of age, looking for company immediately. Apply at 11:30 p.m. to Ching Hing's restaurant. Stefano Boese is twenty-five years of age and good-looking, has high and quick temper, has never been engaged because never had the opportunity, is a good skater and was arrested last time he attempted to get a skate on, would want to meet fair young Canadian lady with object of settling down to housekeeping, is five-foot-six in height and weighs one hundred and forty-six. Apply to The Enterprise. Rocco Ermengildo would like to change his name, but as the laws of this country require that the lady must adopt the gentleman's surname, he would be satisfied at that, provided the lady was not a down and out flirt. He has been paying attention to several young ladies since coming to this country, six years ago, but has never yet run across the real story. He is looking for a nice young lady who is looking for a nice young man. She must be of the most jovial kind, with blonde hair, clear complexion and an unsullied character. She must be a good dancer, walker and housekeeper. He is prepared to give any girl a month's trial.

sentees will be noted.
"We beg to extend through the office commanding the Sanatorium hearty invitation, and cordial welcome to the patients to use the ice free of charge, subject to permitting of the O. C. of course. We have done our trick in hospital and know that something to look forward to, even if one is too ill to participate in hopes to break the monotony and is appreciated by all those who are doing more than their bit.

"We wish to understand that we do not desire in any way to run any opposition to the Blairmore Club rink, but inasmuch as ours is a covered rink, fitted for hockey, and as the stormy weather is always a big factor to be considered, we feel that we are not encroaching in thus advertising our proposition, and our interests in winter sports are mutual.
With best wishes for the New Year, we remain,
Yours truly,
P.T.E. J. McILHAGAN,
Late 10 Batt. C. E. F. France
Flight Lieut. H. H. FITZSIMMONS,
Late 32nd Squad., R.A.F. B.E.F., France.

NOTICE

L. H. Putnam, barrister, etc., who has been engaged on military duty since May, 1918, will on or about February 1919, resume the practice of law at his office, opposite the Postoffice, Blairmore, Alberta.
